We will discuss how you can integrate play therapy methods that best meet your clients' needs at each developmental stage.

Learning Objectives Participants will:

- 1. Be familiar with four different play therapy models that can be combined with each other.**
- 2. Be familiar at least two techniques from each model; their purpose and use in the treatment plan.**
- 3. Be informed about how to integrate these play therapy techniques to facilitate the client's reaching therapeutic goals.**
- 4. Understand how to adapt these play therapy techniques for each developmental stage using a neurodevelopmental framework.**
